

Aklot Installation Manual

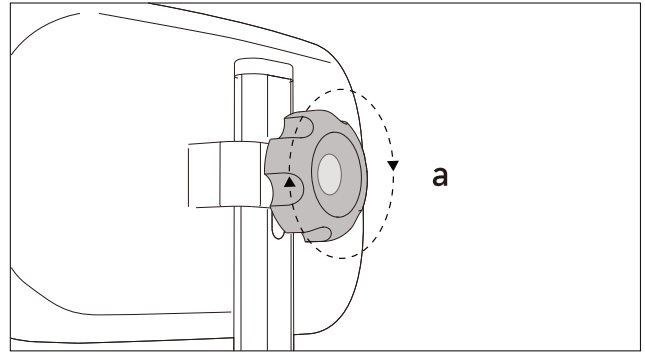

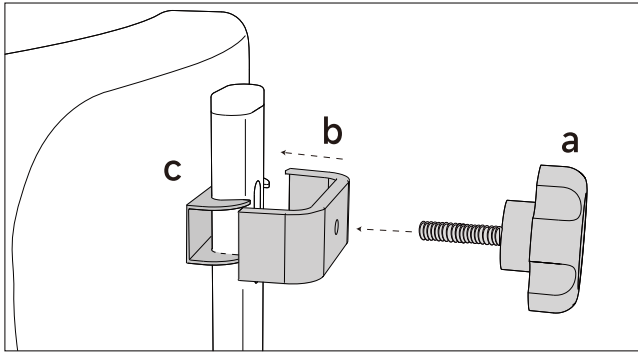

STEP 1: Backrest installation

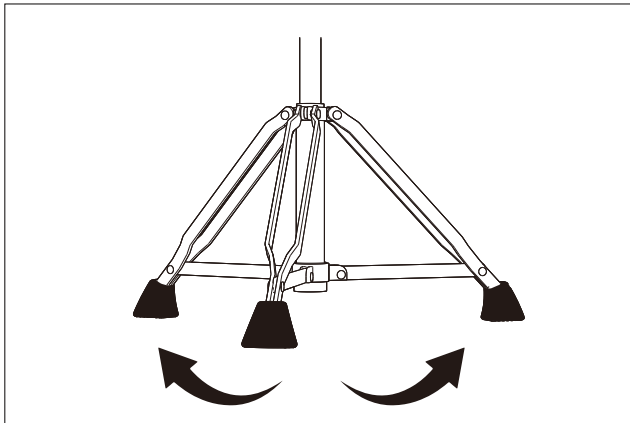

1. Place the concave surface of the iron block d on top of f, insert it into the drum stool backrest connection port (g), and then align the knob (e) from the bottom with the hole of the iron block (d) and tighten it.

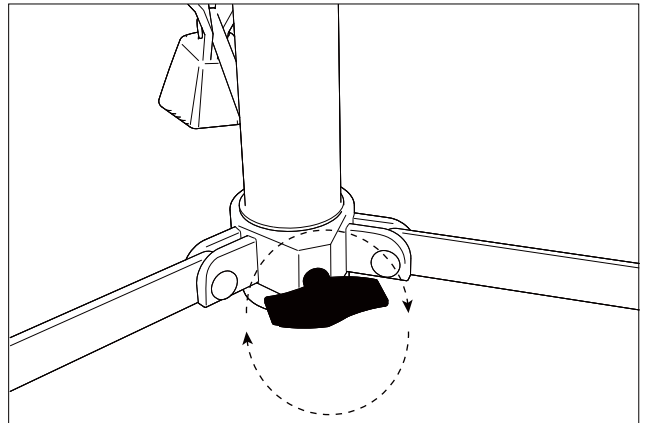

2.Place the backrest in f (L-shaped), press b inward to connect it with c, and then tighten it with knob a.

STEP 2: Drum Throne Installation

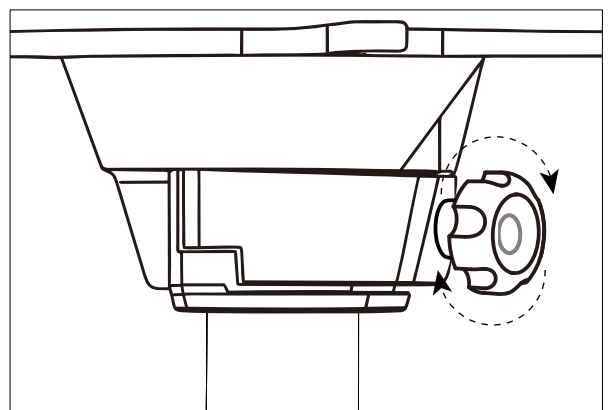

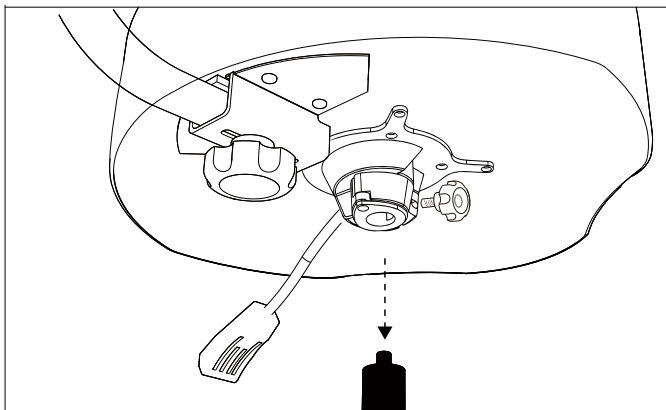

① Open the tripod fully

② Tighten the bottom screws to secure the tripod.

2.Connect the installed drum stool surface to the tripod and put it completely into the tripod (you need to loosen the knob at the bottom of the drum stool)

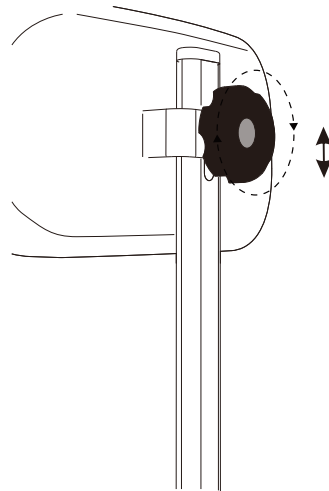

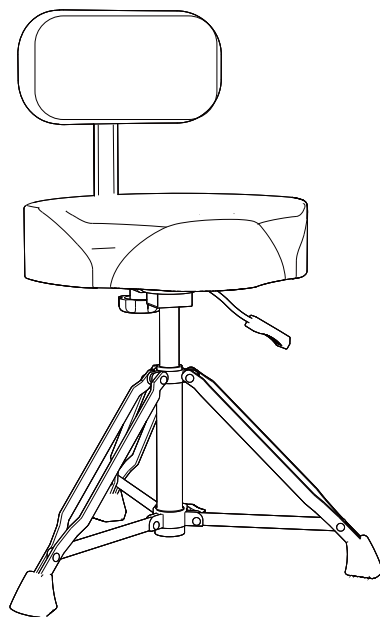

Tighten the bottom screws of the drum throne (2)

STEP 3: Drum Throne Height Adjustment

Drum stool adjustable height from 50-66cm/19.68-25.98inch

The backrest can also be adjusted in height, just loosen the screws to adjust it up and down

TIPS

1. The gas lift structure is precise, please do not disassemble the drum stool by yourself.
2. Store in a cool and dry place. Do not expose it to direct sunlight or place it in a humid place, which may easily affect the service life of the drum stool.
3. Do not stand directly on the drum stool to prevent accidental falls and injuries.
4. When using the drum stool, please observe whether the ground is flat to prevent the drum stool from tipping over.
5. Please check and maintain the drum stool regularly. Do not wipe the stainless steel or cylinder part directly with a wet rag. Use a rag or a slightly damp rag to wipe the plush stool surface. Please blow it dry in time.
6. Please feel free to contact us for any questions about the drum stool.
7. Need to watch the installation video, please see the details page.
